

## Meet the Roc Terminal+ Mobile App

Accept and manage payments at your fingertips. Available on both Android and iOS, the Roc Terminal+ mobile app combines the full functionality of our virtual terminal with the convenience of a mobile app.

### Provide More Ways to Pay

Use the Roc Terminal+ mobile app as a hardware-free solution, perfect for on-the-go businesses. Accept QR payments and cash, or send payment links and invoices. Add the optional RCKT Bluetooth card reader to accept EMV chip, tap (NFC), and swipe—plus support for PIN debit and EBT when needed.

### Stay on Top of Your Inventory

View item quantities at a glance. Whether you're ringing up a quick sale or processing an itemized sale, your catalog is available in-app, so you always know what's in stock and what's selling fast.

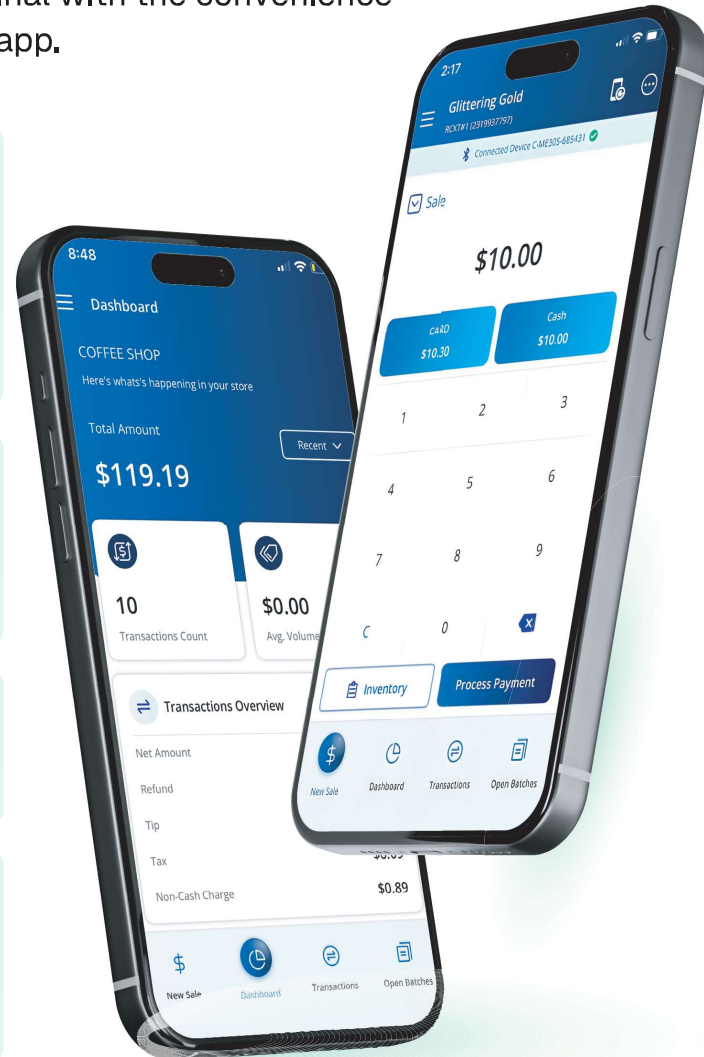

### Easy Access to Reporting

Get quick access to transaction details, batch reporting, pending invoices, and other key insights within the app.

### Save on Processing Costs

Roc Terminal+ is compatible with Payroc's compliant surcharge program RewardPay Choice and supports Payroc's ConsumerChoice dual-pricing program, giving you the tools to lower costs.
