

Power Payments with Roc Terminal+

Roc Terminal+ gives you the power to run your business from anywhere—whether you're working on a next-generation Newland Android device (like the N950, N950-S, or X800), through our virtual terminal, or through our mobile app.

What you can do with Roc Terminal+

SMS and Email Payment Links

Send digital payment requests and receipts instantly.

Multi-MID Support

Accept transactions for multiple merchants on one terminal.

Built-in Catalog Management

Split checks, add tips, and manage inventory right from your device.

QuickBooks Online Integration

Sync your sales in real time. Whether in-person, online, or over the phone, keep your books up to date automatically.

Cost-Control Options

Want to cut processing costs? Save money with Payroc's compliant surcharge program RewardPay Choice or with Payroc's ConsumerChoice dual-pricing program.

Advanced Data Processing

Enjoy the cost savings of Level II processing for card-present transactions and Level II/III for card-not-present.

Deferred Authorization

No Wi-Fi? No problem. Accept offline payments with deferred authorization, and settle transactions once you've reconnected.

Cloud Connect

Push payments from your virtual terminal to your payment terminal for in-office convenience.
